

IT'S TIME TO PUT OUR HEADS TOGETHER

and talk about generator problems!

INTERNATIONAL
GENERATOR
TECHNICAL COMMUNITY

Where?

www.generatortechnicalforum.org

c o n t r i b u t i o n b y p a r t i c i p a t i o n

Participate in the only online technical forum devoted solely to discussing all aspects of maintaining and repairing power plant turbogenerators and hydrogenerators.

Interact with power industry peers focused on generator problems and solutions.

It's a place to ask questions, get answers and share experiences.

Make a contribution to a growing worldwide technical community.

Qualified IGTC members* will be talking about these important topics:

- Generator visual inspections
- Stator electrical testing
- Rotor electrical testing
- Vibration monitoring
- Inner-water cooled stator windings
- Inner-hydrogen cooled stator windings
- Large air-cooled generators
- Hydrogenerators
- Rotor windings
- Rotor mechanical components
- Stator cores and frames
- DC generators
- Exciters

* IGTC forum members include engineers and professionals responsible for power plant generators and independent technical resource providers. You may be eligible to join.
